

Free Youth Mental Health Training for Church Youth Leaders & Parents of Teens

The Youth Curriculum is designed to help those who specifically work with youth recognize the potential risk factors and warning signs of a variety of mental health challenges common among adolescents.

Learn an action plan to help youth get help sooner and have greater potential for recovery. One-half of all lifetime cases of mental illness begin by age 14; three-fourths by age 24.

Mental Health & Recovery Matter

“This class gave me more insights on the inner workings of our youth’s mental processes and how to better spot signs of turmoil, stress, and crises. Everyone who works with the young people of today needs to take this class, so we can better take care of our young people in an increasingly tumultuous world.”

Joe Palmer, Youth Director at First United Methodist Church in Lancaster
